

Jay Prakash Lohar

loharjayprakash4@gmail.com | +91 88751 40357 | Portfolio

EXPERIENCE | 2 YEARS 1 MONTH

CEOITBOX | Full Stack Developer

April 2025 – Present | Delhi, India

- Led development of **5+ production-grade frontend applications** using React, improving UI performance, responsiveness, and stability.
- Built scalable state management using **Redux Toolkit, Zustand, React Query** with optimized caching and background revalidation.
- Designed and consumed secure REST APIs, implemented authentication flows, and improved backend communication reliability.
- Implemented **CI/CD pipelines** using GitHub Actions with PM2 + NGINX deployments, reducing deployment time and failures.

CEOITBOX | Associate Software Developer

April 2024 – April 2025 | Delhi, India

- Developed reusable and modular React components, reducing development time and improving maintainability.
- Enhanced frontend performance and reduced API latency by 30% through memoization and request optimizations.
- Wrote unit and integration tests using **Jest**, achieving **80%+ test coverage** on critical modules.
- Collaborated with cross-functional teams to deliver scalable applications in an Agile environment.

CEOITBOX | Software Developer Intern

Oct 2023 – April 2024 | Delhi, India

- Developed full-stack modules using the **MERN** stack and participated across the full SDLC.
- Integrated third-party APIs and payment gateways, and implemented secure backend logic and validations.

FLOW MANAGEMENT SYSTEM (FMS) Jan 2024 – Present | CEOITBOX

- Built a dynamic visual workflow builder using **React Flow** with drag-and-drop nodes and configurable properties.
- Designed scalable frontend architecture with **React, Redux Toolkit, shadcn**, supporting role-based access and permissions.
- Optimized UI performance using memoization and virtualization for a smooth canvas experience.

DELEGATION SYSTEM – TASK MANAGEMENT Nov 2024 – Present | CEOITBOX

- Developed task management UI with filtering, priorities, deadlines, reminders, and progress tracking.
- Used **React Query** for efficient caching, background updates, and fast data loading.
- Built analytics dashboards using **Chart.js** to visualize task trends and productivity metrics.

OTHER PROJECTS

- Delivered **5+ internal systems**: CBX AI, CBX Meet, CBX Tree, CBX Start, Short URL System.
- Implemented AI-driven features, scheduling UIs, org-tree visualizations, onboarding flows, and analytics tools.

EDUCATION

FULL-STACK WEB DEVELOPMENT

MASAI SCHOOL (FULL TIME)

Bengaluru, Karnataka

April 2022 – Feb 2023

BACHELOR OF ARTS

MOHANLAL SUKHADIA UNIVERSITY

Udaipur, Rajasthan

Jul 2017 – Jul 2019

ELECTRICIAN

INDUSTRIAL TRAINING INSTITUTE

Govt College, Amet Rajasthan

Aug 2015 – Jan 2018

SKILLS

Frontend (Primary): React, Next.js, Angular, Redux Toolkit, Zustand, React Query, Tailwind CSS, Sass, shadcn/ui, Chakra UI, Bootstrap, Ant Design, Material-UI

Backend (MERN): Node.js, Express.js, REST APIs, Authentication, Authorization, Microservices, MVC Architecture

Programming Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Database: MongoDB (Aggregation, Indexing, Performance Optimization)

DevOps / Cloud: AWS, Docker, PM2, NGINX, GitHub Actions CI/CD, Linux/Ubuntu

Testing: Jest, Unit Testing, Integration Testing

Security: JWT, OAuth2, Role-Based Access, Input Validation, API Security

System Design: Scalable Architecture, Caching, High Availability, Performance Optimization

Tools: Git, GitHub, Postman, VS Code, Figma, Chrome DevTools
